

STUDENT ENGAGEMENT: FROM THE SYLLABUS TO THE FIRST DAY AND BEYOND

August 22, 2019

### ON INDEX CARD

- 1. Question/concern about your course syllabus
- 2. Question/concern about the first day/week of class
- 3. Question/concern about engaging students
- 4. Anything else about teaching at UConn

#### Think/Pair/Share/Square

**CETL** is here for you!

# THE SYLLABUS ACTS AS A CONTRACT WITH YOUR STUDENTS & ALSO AS AN ENGAGEMENT TOOL

Provides contact information

Presents an overview of the course description, goals and objectives

Lists required materials

Describes the schedule (build in flexibility), assignments, and assessments

- Academic Calendar
- Course Workload Estimator

Clarifies policies (including grading criteria) and expectations

Including important <u>University Policies</u>

Draws in students and generates excitement and curiosity

- Accessible Syllabus
- Culturally Inclusive Teaching and Learning

### THINGS TO KEEP IN MIND AT UCONN

According to **Senate By-Laws** (see page 39), syllabi must specify

- what will be taught
- how it will be taught
- how learning will be assessed
- how grades will be assigned

Attendance cannot be included as part of a course grade.

### THINGS TO KEEP IN MIND AT UCONN

At the last University Senate meeting of Spring 2019, an amendment to Section II.E.10 of the <u>Senate By-Laws</u> was passed. This amendment specifies that:

- In-class assessments may not be given during the last week of classes
- Other types of assessments, such as projects or performances, may be due during the last week of classes if stated on the syllabus at the beginning of the semester
- Other types of assessments may also be due during time scheduled for the classes' final exam, as long as this was on the syllabus at the beginning of the semester

## CONSIDER A STATEMENT ON SUCCESS

Include language that encourages students to reach out to you for help, adopt a growth mindset, and expect challenges and even setbacks.

Consider providing tips for success from former students or even the teaching and learning literature.

Student Health and Wellness

**Academic Achievement Center** 

**Dean of Students Office** 

# SAMPLE STATEMENT ON SUCCESS ADAPTED FROM UNIVERSITY OF ROCHESTER

Success in this course program depends heavily on your personal health and well-being. Recognize that stress is an expected part of the college experience, and it often can be compounded by unexpected setbacks or life changes outside the classroom. Your teaching assistants and I strongly encourage you to reframe challenges as an unavoidable pathway to success. Reflect on your role in taking care of yourself throughout the semester, before the demands of exams and projects reach their peak. Please feel free to reach out to me about any difficulty you may be having that may impact your performance in your courses or campus life as soon as it occurs and before it becomes too overwhelming. In addition to your academic advisor, I strongly encourage you to contact the many other support services on campus that stand ready to assist you.

## Err on the Side of Empathy

# INCLUDE OPPORTUNITIES FOR FORMATIVE ASSESSMENT

Minute Papers

**Practice Quizzes** 

**I-Clicker Questions** 

**Muddiest Point** 

**Anonymous Surveys** 

### **SYLLABUS**

Convey contractual material—procedures and expectations

...but also

"Convey the excitement, intrigue and wonder that's inherently part of the content you teach"

# INTRODUCE THE SYLLABUS TO STUDENTS

- Review the syllabus early on the course
- Consider in-class activities that focus on understanding the syllabus
  - syllabus speed dating
  - syllabus quiz

Post the syllabus on HuskyCT

### **LOOKING FOR HELP?**

TOMORROW: Need another set of eyes on your syllabus? Have questions about designing a rubric? CETL is offering drop-in office hours on Friday, August 23, from 8:00 until 1:00 in Rowe 315. No appointment necessary. Just stop by Rowe 315.

Or email <u>suzanne.lafleur@uconn.edu</u>

UConn's ecampus syllabus template

## DAY ONE! CREATE A WELCOMING ENVIRONMENT

#### Exchange information

- Introduce yourself
- Start to get to know your students

#### Consider an ice breaker

- Best & worst classes
- 3 truths and 1 lie
- Scavenger hunt

## Teach & model your approach

Begin to engage students in the course

#### Go over course information

 Emphasize important goals, objectives and policies

# WHAT IS STUDENT ENGAGEMENT IN THE CLASSROOM?

"Student engagement is central to good teaching. In the engaged classroom, students actively construct understanding by collecting, manipulating, and analyzing information. Research supports the use of a variety of teaching strategies to increase student engagement."

- ETS

### ENGAGEMENT INDICATORS (NSSE)

| Theme                      | Engagement Indicators             |
|----------------------------|-----------------------------------|
| Academic Challenge         | Higher-Order Learning             |
|                            | Reflective & Integrative Learning |
|                            | Learning Strategies               |
|                            | Quantitative Reasoning            |
| <u>Learning with Peers</u> | Collaborative Learning            |
|                            | Discussions with Diverse Others   |
| Experiences with Faculty   | Student-Faculty Interaction       |
|                            | Effective Teaching Practices      |
| Campus Environment         | Quality of Interactions           |
|                            | Supportive Environment            |

# WHAT DOES THE RESEARCH SAY ABOUT ITS IMPORTANCE?

Student engagement in the higher education classroom has been linked to a variety of positive outcomes, including improved critical thinking (Burbach, Matkin, & Fritz, 2004).

Critical thinking abilities and emotional intelligence are associated with grades. In regression analyses, they improved (by 50%) our capacity to account for variability in first semester college grades (Mossler, Lukhard, Gill, & Britner, 2002).

#### BOREDOM VS. ENGAGEMENT

Kanevsky and Keighly (2003) studied the boredom of gifted high school students who had become disengaged in their classrooms. They conclude that learning is the opposite of – and the antidote to – boredom.

Five (interdependent) characteristics distinguished boredom from engagement:

- Control
- Choice
- Challenge
- Complexity
- Caring teachers

# MORE RESEARCH FINDINGS: NSSE (2004)

When faculty **EXPECT** students to study more and arrange class to this end, students ARE more productive.

Students who engage in "deep" learning activities report greater educational gains and are more engaged and satisfied.

#### PEDAGOGICAL TECHNIQUES ASSOCIATED WITH GREATER STUDENT ENGAGEMENT

Instructors' messages of willingness to communicate, inclusion, and appreciation (Mottet, Martin, & Myers, 2004)

Active Learning (Felder, R.M. & Brent, R., 2009)

#### When in small-group, cooperative learning settings

 college students were more engaged, did more on-task thinking, perceived the task to be more important, and demonstrated more optimal levels of challenge and skill, relative to the time they spent in a large-group lecture (Peterson & Miller, 2004).

### SUGGESTIONS

Build relationships in the classroom

Communicate your passion for learning & for the subject matter

Use humor – if it suits you

Use active learning activities

Prepare extensively – then strive for flexibility amidst structure

Be clear with objectives, and design assignments and exams that reflect students' knowledge and critical thinking
