

Accessibility at UConn

Information Technology Services

Kathryn Weber-Hottleman, IT Accessibility Coordinator

UConn

ICT Accessibility Policy

- More encompassing: Beyond just websites
 - Websites
 - Documents
 - Hardware and software
 - Social media

Accessibility Principles: POUR

- **Perceivable:** All aspects of your site or document are viewable
- **Operable:** Operable user controls
- **Understandable:** Content is consistent and clear
- **Robust:** Content acts similar across platforms

Accessible Websites

- Use headings, not modifying text manually
- Meet color contrast guidelines
- Create alternate text for all images
- Avoid “click here” links

Accessible Documents

- Use Styles, not bold and italics
- Meet color contrast guidelines
- Use a sans serif font no smaller than size 11pt
- Provide alternate text for images
- PDF accessibility workshops and service

Media and Multimedia

- Images must have alternate text
- Video with no audio must have an alternative or an audio track that provides equivalent information
- Audio must have an alternative, such as captions or a transcript, that shows all auditory information (including important sounds)
- Caption all multimedia (video with synchronized audio)
